myGolfCoach® - The software for golfplayers

The recent update of myGolfCoach shows the trend

Besides the well proven statistics, analyses and training programs the recent - and free - update of myGolfCoach provides the opportunity to calculate the trend of your game for future rounds. Based on the entered scorecards trend analyses of the different parts of the game will be created as well as the estimated value of the next round is calculated.

This trend analyses includes the long game (fairways and greens), the short game (up & down, scrambles, sand saves), the putting (putts/round, 3-putts/round, putts after hitting a green and putts after a pitch or chip), the trend of the detailed fault quotas in the short and in the long game as well as the score trend calculating the trend for your gross and net stableford points, penalty strokes and much more. All this data are presented as graphical diagrams showing the user at a glance which parts of his game could be improved and which parts are going into the right direction.

This new features and the already available functions of myGolfCoach provides you with all necessary statistics and analyses of your own game and qualifies itself as perfect road to a better handicap.

about myGolfCoach

myGolfCoach was developed in close cooperation with the Austrian National Golf Team and the Austrian Golf Academy®. It allows you to capture all the strenghts and weaknesses of your game. The software runs on standard PCs and supports a scorecard input using simple assistants as well as Palm OS® PDA's oder Pocket PC's using Windows Mobile®. For handicap tracking myGolfCoach supports common handicap systems of several golf associations: EGA®/DGV® (Europe), EGU®/CON-GU® (UK, Australia, New Zealand), USGA® (United States) and RCGA® (Canada). These features and over 24.000 golfcourses provided with the software turn myGolfCoach into a comprehensive tool for the inquisitive golfer and an important coach to achieve your personal aims in golf.

A free trial version of myGolfCoach is downloadable from <http://www.mygolfcoach.net> and allows to try out most of the features. The full version is available as CD-ROM or as downloadable version.
